### Lhv的意思

1、abbr.liquid hydrogen vessel 液态氢容器;Low heat value 低热值，低发热量;

### Lhv的双语例句

1、Research on LHV Theory and Quantum Non-locality from the Viewpoint of Correlation

基于关联行为的隐变量理论与量子非定域性的研究

2、Correspondingly, there is an increase in LHV and density of gas.

并且水蒸气热解明显提高了产气的热值和密度。

3、Authers also discussed the indication of the stent placement and the clinical significance of RPHV and LHV stent placement in the BCS.

笔者还讨论了BCS内支架置入的适应症和副肝右静脉肝左静脉置入支架的临床意义。

4、Based on TG-FTIR, more experiments were performed on tube furnace in order to study the affection of temperatures, catalyst additives on syngas components, LHV and gas production.

于是在TG-FTIR实验的基础上，在管式电炉中又对温度、催化剂添加比例对垃圾典型组分的产气组成、热值以及产气量的影响进行了实验研究。

5、50 non-illness adult cadaveric livers were dissected, LHV was surveyed, the correlated data were collected and analyzed statistically. 2.

材料与方法1.解剖、剥离50例成人无病变尸体肝脏肝静脉，对LHV进行观测，采集相关数据进行统计分析。

6、The effects of equivalence ratio and volume fraction of oxygen on gas composition, carbon conversion and low heating value ( LHV) of fuel gas were investigated through a series of experiments.

实验主要考察了氧的当量比和氧体积分数对气化气组成、碳转化率和气体热值的影响。

7、The coal gases came from two-stage gasification process and the exhaust gases containing combustible components from chemical and metallurgical industries are all low heating value ( LHV) gas streams.

以两段法等制作的普通煤气及化工、冶金企业中含可燃组分的废气等，都是低热值燃料。
