

## 《2025年中考英语阅读理解专项训练及答案（18）》

Hi, guys! Last week I read a book called Rabbits in Australia. Rabbits look cute, but when they enter in large numbers, it's a problem. In Australia, rabbits have crowded into the land. They eat the plants that farmers grow. They eat the plants other animals need to eat, so other animals find it hard to live.

These days I'm reading Moby Dick. It's considered to be the "Great American Novel", or one of the greatest novels of all time. The story takes place on a whaling ship that sails the seas to find Moby Lick, a very large whale.

Well, I love detective stories. Last month I read The Stolen Letter. The writer brings me into the story of his characters' lives. He also introduces a sense of mystery in the story. It keeps me interested until the very end of the story.
