1、 Incoherent interaction of two parallelly launched self-trapped beams was studied.

研究了非相干情况下两个平行传输的自陷光束的相互作用。

2、 In traditional vehicle model, spring and damper are usually parallelly arranged.

传统铁道客车模型一般是弹簧、阻尼器并联的形式。

3、 When relational tuples are flowing from mass storage to host via this filter, the unary operations of relational algebra for them such as projection and selection are completed parallelly.

使关系元组在由外存至主机的流动过程中就并行完成筛选、投影关系代数的一元运算。

4、 The algorithm, which can be parallelly implemented in the environment of multiprocessors, satisfies efficiently realtime requirement of the navigation system with multi-subsystems.

这种在多处理机环境下并行处理的分布式滤波算法有效地解决了具有多子系统的容错导航系统的实时要求。

5、 Based on NETBIOS software interface for the IBM token ring, this paper introduces a driver program by which the workstation can process parallelly with the intellectual network adapter.

本文以IBM令牌环网NETBIOS软件接口为基础,构造了一个可实现站点机和网络智能适配器并行处理的接口驱动程序。

6、Two probes for P-wave are parallelly coupled in a distance on the same plane of the rock block with grease.

将两个纵波探头平行放置在同一平面，利用润滑脂耦合。

7、Joint transform correlator is a apparatus to parallelly dispose the optical image signals with high real-time capability and precision.

联合变换相关器是对光学图像信号进行并行处理的器件，实时识别性能强，精度高。

8、Implementing the semi-automatic multi-channel solid phase peptide synthesizer of the utility model can greatly improve the efficiency of parallelly synthesizing polypeptide chain in batch quantity;

实施该半自动多通道固相多肽合成仪后，大大提高了多肽链批量平行合成的效率；

9、To analyze the influence of time-delay on system performance, a parallelly triggered delaying model is induced and relevant algorithm is designed based on FIFO data structure.

考虑到时延对系统性能的影响，该文归纳出一种并发延时模型，并利用FIFO型数据结构设计了相应的并发延时算法。

10、Methods Suspension quantitative test was used to observe the resistance of E.coliphage F2 to 7 common chemical disinfectants and to compare parallelly with poliovirus.

方法采用悬液定量试验法，观察了大肠杆菌F2噬菌体对7种常用化学消毒剂的抵抗力，并与脊髓灰质炎病毒进行了平行比较。

11、The micrometer data for the continuous growth of cloacal gland is parallelly correlated with the data of testis weighing.

根据泄殖腔腺发育的测微数据与睾丸发育增重数据分析，表明二者的胚后发育有显著的正相关关系。

12、The chain is composed of a series of value drivers which share cause-effect, or interacting, or parallelly cooperative relationship.

股东价值创造链由一系列或为因果或交互影响或协同并列的价值驱动器构成。

13、Modules with microcontrollers in the system process their signals parallelly, and communicate with host processor by dual port memory.

以单片机为核心的各传感器接口模块并行处理各传感器信号，并通过双口存储器与上位处理器通信。

14、 Those have two important properties: the threshold decomposition and the stack properties, which ensure that the filtering process go on in binary field parallely.

它所具有的阈值分解和堆栈两个重要性质保证了滤波过程可以在二进制域并行实现。
